

The velcro name tags and concealed buttons (less likely to catch on things).

The green shirt (a heavier poly cotton) rather than a white one.

Easy access to pockets in the pants mean crews have their hands free.

The green (poly cotton) cargo trousers (rather than polyester/wool black ones) offer the best comfort, durability and versatility for our teams across the country who perform a diverse range of activities every day.

New uniform for St John ambulance officers

The next time you see a St John ambulance officer you will notice something different about them.

The new uniform is more durable and much easier to clean and maintain.
