

Patient seen, treated and transported by St John Ambulance to a Partner destination

Either:

- Ambulance Officer uses PC provided to access ACS on internet,
- Or
- Partner receiving staff uses workstation to access ACS on internet.

N.B.

If NHI details are marked as **confirmed** in the ePRF, the NHI number will be recorded on the ACS.
 If NHI details are marked as **unconfirmed** in the ePRF, the NHI number will not be shown on the ACS.

N.B.

- "ePRF" refers to the electronic form completed by an Ambulance Officer on the tablet.
- "ACS" refers to the digital Ambulance Care Summary document that ePRF produces.
- "ACS Advice sheet" refers to the printed form that an Ambulance Officer completes with hand-over PIN details and self-care advice for the patient.
